## Will This Christmas Be What You Want It to Be?

There can be too much stress on money. True observance of Christmas should never become dependent upon "things that money can buy."

Yet we must face the fact that money-worries can spoil or diminish seasonal enjoyment for many. Gifts need not be expensive - but gift-giving has become a tradition, especially when there are children. Expenses soar, too, in most households during or immediately after the Christmas season --- fuel and light bills are at their peak, auto license plates must be purchased, taxes must be paid.

Here are two steps than can be taken to make this Christmas and the next more enjoyable, less worrisome.

#### FOR THIS CHRISTMAS

A Personal-Savings Loan may be obtained at Kingston Savings Bank on your savings balance in this or any New York State savings bank. The cost is low - only \$2.88 a year per \$100 borrowed - and your savings remain intact, continuing to draw generous interest-dividends. You borrow from \$100 to 100 per cent of your savings account balance, repay in equal monthly installments over one, two or three years. At no cost to you, the unpaid balance is covered by life insurance, up to \$2,500. In Kingston, this type of loan is available exclusively at Kingston Savings Bank.

#### FOR NEXT CHRISTMAS

Open a 1963 Christmas Club now at Kingston Savings Bank, the bank that pays a Cash Bonus on all completed clubs. Pay as little as 50 cents a week, have the money you need, when you need it, to make next Christmas a merrier one for you and your family. Our bonus on completed clubs is the equivalent of 2% interest per annum. There is none higher on any Christmas Club in the area.

#### WILL AMERICA

#### MISS THE MARK?

The lead a nation holds may be here today and gone tomorrow. We must raise our sights if we are to hit the target in science, business and world affairs.

But the education that trained our leaders yesterday is not adequate for tomorrow. Colleges are in a squeeze. Some face shortages, and in less than 10 years applicants will double.

If we value leadership, we must see that our higher in-stitutions have well-equipped laboratories, enough modern classrooms and, above all, a steady supply of competent teachers.

# Bobby Fischer Will Compete For National Chess Laurels

A former boy chess prodigy, ers in the area, is one of eight Championship starting Dec. 16 in New York City.

Two chess geniuses will retain the limelight in the Lessing J. Rosenwald tournament from the beginning. One of them is Bobby Fischer, youngest player ever to hold a grand master's rank.

At age 12, Fischer was beating Paul Fenster, Adolph Heckeroth and other Woodstock chess experts with consummate ease and discouraging regularity. He spent his summers at the Peter Pan Camp in Zena and quickly built up a fabulous reputation at the expense of some fair to middling chess hands in Woodstock. Although he was nominally located at Peter Pan Camp, this strange, quiet lad spent most of his time n the Woodstock area looking for challenge matches.

#### Rated With Reshevsky

Fischer shares the favorite's role for the U.S. championships with veteran Samuel Reshevsky who at age 50 is regarded by many experts as the greatest player in the history of chess. Writing in New York Times bout the forthcoming nationals, Al Horowitz said: "With all deference to recognized abilities and fine records of other entries, it is fair to say that only Reshevsky and Fischer are absolutely of world championship caliber."

Chess fans everywhere eager y await the bitter clash between these two indomitable personali-ties—a conflict which was marked by the abortive match between them in August, 1961. Essentially, the Fischer-Reshevsky showdown will be a contest between tactical flair backed by intense drive and strategic maneuver of great depth coupled with steely purpose.

World Title Status Beyond determining the current ranking of American masters, the outcome of this event may well have a decided bearing on who will be the next challenmatically be seeded into the next
